## Book Description

A haunted house becomes the focus of a demonic investigation, so Brenda teams up with a trio of werewolves to solve the mystery. But when the house eats her, can they find a way to save her? I met a trio of furballs when my BFF was dealing with a demon issue and since then, I can't stop thinking about them. When the chance to investigate a possessed house appears on my desk - after I filch it from someone else's - I know it's fate we team up again. However, I might have bitten off more than I can chew, because suddenly my hunky puppies are demanding I become their permanent chew toy. Me, mated? Eek, but also yum. Did I mention they totally make my body purr? Before we can indulge in a sweatily-ever-after, though, they'll need to save me from Mr. Peabody's house, because I do believe it ate me. Contains mature themes.
